

eco-smart®

Cold Drink Cups

Ongoing biodegradation
measured to ASTM
D5511 standards*

Made from
recyclable
polypropylene

Strong, durable,
and crack-resistant

Australian made in
HACCP accredited
facilities

Here's how it works...

Eco-Smart® allows plastic to biodegrade* through a series of chemical and biological processes when disposed of in a microbe-rich landfill environment.

Eco-Smart® is blended with plastic, then turned into consumer products.

Landfill = Biodegradation*

Eco-Smart® allows micro-organisms to break down the plastic, into natural bi-products.

Recycled

The recycling process is unaltered.

*Eco-Smart® polypropylene cups have been shown to biodegrade 52.1% after 2.53 years, under conditions that simulate a wetter biologically active landfill, using the ASTM D5511 standard test. Note that a stated rate of degradation does not mean the product will continue to decompose. Testing continues on all Eco-Smart® products to track the rate of biodegradation. All data will be made available on our website: www.castawayfoodpackaging.com.au

eco-smart®

Cold Drink Cups

**Strong, durable,
and crack-resistant**

**Ongoing biodegradation
measured to ASTM
D5511 standards***

**Eco-Smart® beer
cups are Weights &
Measures approved
for alcohol service**

**Australian made in
HACCP accredited
facilities**

**Made from
recyclable
polypropylene**

Water cups

**Economical and convenient - ideal for parties,
waiting rooms and around the office**

Suits most standard water cup dispensers

White and clear cups available

200ml / 7oz

CA-PDW7

White

50 per sleeve
1000 per carton

200ml / 7oz

CA-PDC7

Clear

50 per sleeve
1000 per carton

Beer cups

**Safe alternative to glass – ideal for events,
functions and catering**

**Tapered base – fits in cup holders and carry
trays without tipping**

285ml

CA-PP285WM

Clear

50 per sleeve
1000 per carton

425ml

CA-PP425WM

Clear

50 per sleeve
1000 per carton
