Coffee Roaster's
CATALOGUE

Welcome

Castaway® Food Packaging prides itself on creating innovative packaging solutions for coffee roasters and baristas, over the past 40 years. We aim to be a full-service coffee roasters packaging supplier, specialising in custom branding across our range of products.

In 2018, we continue to bring our passion and commitment to the coffee industry with the addition of a new range of Castaway® coffee bags. With our Australian-based facilities, we manufacture high quality coffee cups, lids, napkins and paper bags that empower coffee professionals to provide swift service and satisfying coffee experiences.

Why partner with us?

Australian Manufacturing

We manufacture takeaway paper coffee cups and lids in Australia in HACCP certified facilities. This has many benefits for our customers including greater quality control, quick turnaround times, and the ability to react quickly to our customer's needs.

Sustainability through Innovation

We are on a journey to make the most sustainable and environmentally conscious products in the Australian market.

Product Design and Print Management

We take great pride in our design, print management and colour accuracy throughout all of our printed products. Our in-house design studio, is a free, complimentary service to our clients that ensures quality and consistency throughout the full suite of branded packaging, not just one product.

Stock Management, Distribution and Local Support

We have a national footprint of MPM-owned distribution centres. We hold a full range of stock in each distribution centre to ensure that supply is always local, providing fast and reliable distribution throughout Australia. We will manage stock levels for you, so you never run out of stock.

BrandBuilders® Custom Printing

Take your blend or brand further, and transform your coffee bags into moving billboards for your business. Our TrueColour™ print management system utilises the latest technology to

accurately match colours throughout the whole process from initial colour selection, to colour proofs, and final production. Our printing experts will ensure that your brand and design is consistently reproduced across different material substrates for high-quality, colour accurate packaging.

Showcase your blend

Our high-quality gravure printing process can produce up to ten colours, delivering photographic image quality, with sharp graphics and text.

A number of outer finishes are available, including:

- Matte laminate
- Matte laminate with metallic effects
- Gloss laminate
- Gloss laminate with metallic effects
- Uncoated natural brown kraft

Which coffee bag do I need?

Compare features and benefits

Castaway® coffee bags ensures your beans remain fresh, from the roast to the pour. They come in a range of styles, formats, closures and degassing valves to create the perfect environment for preserving freshness and extending shelf life. Use the comparative table below to determine which bag is best suited to your particular needs.

| | Side Gusset Coffee Bags | Stand-up Coffee Pouches | Box Bottom Coffee Bags |
|---------------------|---|---|--|
| Description | Side Gusset Coffee Bags cater for coffee roasters who sell their beans wholesale for baristas to use behind the counter. | A versatile choice for roasters who pre-fill their pouch with beans, seal with the zipper to keep the beans fresh, and then at the time of purchase, grind them for the customer. | The box bottom bag retains its shape to sit neatly on a retail shelf like a box, ensuring strong visual impact and stability. This allows a greater number of facings. |
| Opening | Heat-sealable opening K-Seal construction | Heat-sealable, wide opening for easy filling. Resealable zipper built-in | Heat-sealable opening. Peel 'n' Seal resealable zipper built-in |
| Application | Designed for behind-the-counter use | Designed for retail coffee bean sales | Designed for retail coffee bean sales |
| Material | Made with a mix of materials including bi-oriented polypropylene (BOPP), metallised PET (VMPET), and linear low-density polyethylene (LLDPE). | Made with a mix of materials including bi-oriented polypropylene (BOPP), metallised PET (VMPET), and linear low-density polyethylene (LLDPE). | Made with a mix of materials including bi-oriented polypropylene (BOPP), metallised PET (VMPET), and linear low-density polyethylene (LLDPE). |

Coffee Cups

Reduce and recycle

Providing a balance between sustainability, practicality and convenience, the Castaway® paper coffee cup offers you the optimal packaging solution for takeaway coffee.

Recyclable

Castaway cups are accepted for recycling by many councils throughout Australia. Made from PE-lined liquid paper board, a material that is easier to recycle than milk cartons, they provide a valuable resource that can be reused, reducing the amount of waste sent to landfill.

Australian Made

Castaway cups are manufactured in our own facilities right here in Australia. By investing in local manufacturing, we not only support our local economy, but also reduce our environmental footprint by reducing transportation to a local-level. All of our facilities are HACCP certified ensuring strict control of food safety and product quality.

Eco-Smart® Lids

Castaway Eco-Smart lids are designed to be recyclable, but if not recycled, they can biodegrade in an anaerobic (nil oxygen) landfill. Using Eco-Smart biodegrading technology, the lid attracts microbes to digest the plastic and turns it into natural soil. Ongoing tests show that Eco-Smart lids biodegrade in an anaerobic landfill environment by 30.2% over 2.13 years using the ASTM D5511 testing standard.

30.2%
BIODEGRADATION
2.13 YEARS

Sustainably Sourced Paper

Castaway cups are made with paper sourced from certified managed plantation forests. Paper is both renewable and recyclable, contributing to a circular economy where materials can be reused to produce new products.

Water Based Inks

We only use water-based inks for printing Castaway cups, which are free from harmful toxic chemicals, and are made from naturally occurring substances.

Which coffee cup do I need?

Compare features and benefits

There are many things to consider when choosing which type of coffee cup to serve your brew in such as:

- Serving temperatures
- Insulating properties
- Surface texture and feel
- Custom-printing options
- Which size you want to offer.

To help point you in the right direction, we have explained the key differences between our cup ranges in the table below.

| | CLASSIC Single Wall | COMBO Single Wall | COMBO Double Wall | DIMPLE® Textured |
|--|--|---|---|--|
| Description | Classic Single Wall cups cater to baristas who prefer the two lid system for easy cup size differentiation. | Less paper is used in the manufacture of Single Wall paper coffee cups, offering a cost effective alternative for lattes and cappuccinos. | Double Wall Insulcups® feature an insulating air pocket between two layers, keeping drinks hot while minimising heat transfer to your hand. | The unique texture of the Dimple® design offers a point of difference from your competitors, and provides excellent feel and handling. |
| Wall type | Single rigid wall | Single rigid wall | Double wall with insulating air pocket | Textured outer wall with insulating air pockets |
| Outer finish | Matte, uncoated surface | Matte, uncoated surface | Smooth gloss surface | Unique, dimple textured surface |
| Printing | Printable to base of the cup | Printable to base of the cup | Printable in multiple finishes | Printable to base of the cup |
| Nominal vol [Brim fill vol] | 6oz (190 ml) [225 ml] 8oz (280 ml) [275 ml] 12oz (355 ml) [425 ml] 16oz (460 ml) [510 ml] | 4oz (118 ml) [118 ml] 8oz (280 ml) [300 ml] 12oz (355 ml) [390 ml] 16oz (460 ml) [495 ml] | 8oz (280 ml) [300 ml] 12oz (355 ml) [390 ml] 16oz (460 ml) [495 ml] | 8oz (280 ml) [300 ml] 12oz (355 ml) [390 ml] 16oz (460 ml) [495 ml] |
| Lid system | classic lid system  | combo lid system  | combo lid system  | combo lid system  |

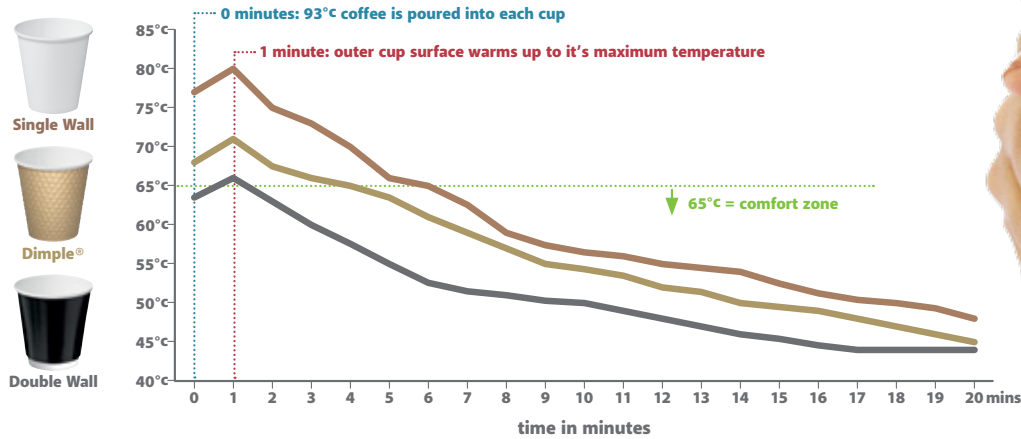

Which coffee cup do I need?

Castaway Coffee Cups are designed to keep your drinks hotter for longer – allowing customers to enjoy every sip without the compromise of taste and temperature. With its single or double layers of insulation, our cups have an extremely high rate of heat protection adding extra comfort for your customers.

The temperature at the outer surface of the cup is measured every minute. This is the 'holding temperature', the heat that your hand feels when holding your coffee. A comfortable holding temperature is 65° C. This graph shows the difference in holding temperature for each cup type over time.

Compare cup insulation properties

To test the insulation properties of each cup, we poured black coffee equivalent into each cup type. (This is an extreme test starting at a higher than average temperature of 93° C).

Combo® cup lids

Our Eco-Smart® paper coffee cup lids have been designed with a secure SnapOn® fit around the cup for a safe and leak-free experience. The ergonomic design of the sipper has been created to provide a comfortable drinking position without the intrusiveness of a traditional spout.

Castaway® hot cup lids feature Eco-Smart® biodegrading* technology which allows standard plastics to break down into natural soil.

-  **Made with Eco-Smart® biodegrading* technology**
-  **Made from recyclable polystyrene (PS)**
-  **Australian made in HACCP certified facilities**
-  **BrandBuilders® custom embossing available**

Classic cup lids

Snap-On® paper coffee cup lids are designed to fit Castaway® Classic Single Wall Cups for baristas who prefer the two-lid system for easy cup size differentiation.

-  **Made from recyclable polystyrene (PS)**
-  **Secure Snap-On lid fit**
-  **Provides safe transportation of hot drinks**

Make a stunning first impression.

At Castaway®, we have the ability to create custom designed and printed products over a wide range of materials. Our design service enables operators to “Build their Brand” using a truly mobile platform, their food and beverage packaging. Branding offers many advantages such as creating and retaining customer loyalty, giving a more professional appearance and enhancing the product itself.

Contact us today to find out how we can build your brand and your business.

How can we help you grow your business?

The one-stop packaging shop

Our product website allows coffee roasters to view our full range of products, build a pantry list of packaging products and request free sample packs, or simply enquire. To find out how our packaging solutions can provide you with a one-stop shop for your coffee roastery, email us at: sales@mpmmarketing.com.au

Product training and work-with days

Our on-the-ground Sales Executives can provide product training for your sales team, providing essential information, hints and tips to ensure that your team is fully equipped to confidently present and sell our packaging products. We can also partner with you on end user sales calls to get the best outcomes for your team and your business.

Marketing support

We can provide you with co-branded promotional material to reach your target market, whether your goal is to launch new products, or generate sales for an existing range. We also have promotional point-of-sale material available for selected product ranges.

Promotional support

We can offer free marketing and promotional support to educate your customers on sustainable initiatives, the correct disposal of takeaway packaging, and to increase your sales.

Starting a new business?
